

## Hackathon Website Critiques

<https://hackpsu.org/>

### Hackathon at Penn State

Good:

- Eye grabbing home page with animated image in the background with catchy color scheme
- Responsive mobile site

Bad:

- The change in the background color in the sponsor section
- Slow loading, when clicking on register now
- Social media icons spacing at the bottom of the page in desktop mode

### Hackathon at University of Michigan

Good:

- Responsive desktop and mobile site
- Nice background color scheme

Bad:

- The applications are open now section would look better if matched width with Welcome section.
- Welcome and sponsor section in the mobile site would look better if center aligned
